

Quick Reference Guide

# Reconciling Accounts

## RECONCILING ACCOUNTS

Different financial reports will be used for reconciling the different types of accounts that are used at UNI. The three basic account type reconciliations are described below.

### GENERAL FUND ACCOUNTS

*Use the reports listed below to reconcile General Fund accounts.*

1. **Statement of Account** ("Show Detail") - This report provides budget, expense, encumbrance, and free balance information. It features drill down capabilities that make researching any item easy by just clicking.
2. **Transaction Detail** - Obtain a complete listing of all account activity; especially helpful if you have several months to reconcile.
3. **Personnel Expenditures Detail** - If you monitor salary expenditures, this is the report for you. This report provides budget, expense, encumbrance and free balance (salary savings) information for students, faculty and staff.

### GRANT ACCOUNTS

*Use the reports listed below to reconcile Grant accounts.*

1. The **green bar report** from Grants and Contracts – This report is the only one that should be used to determine how much has been spent in the grant and what is the grant balance.
2. **Transaction Detail** - this is the report to use to see the detail of which expenses have gone through the grant account.

### NON-GENERAL FUND ACCOUNTS

1. **Statement of Account Financial Summary** (hint: enter only the fund # and verify the low segment is all zeroes and the high segment is all 9's) – This is the only report that will reveal the beginning and ending balances.
2. **Transaction Detail** - Get a complete listing of all account activity.
3. **Statement of Account** – (hint: enter only the fund #) If there are questions about any items appearing on the transaction detail, use the drill down functionality of Statement of Account report to research the item.
